## **INDIVIDUAL ASSIGNMENT: PROJECT ANALYSIS**

(<https://www.youtube.com/watch?v=N3N9-RLSbvo>)

The four main phases of the Project Management Life Cycle (PMLC) are Initiation, Planning, Execution, and Closure. It provides an organised method of project management that includes determining the needs of the business, resolving issues, organising, carrying out, and assessing the project. The PMLC guarantees a thorough and methodical approach to accomplishing project goals.
