INDIVIDUAL EXERCISE (REPETATION/LOOPING)

```cpp
#include<iostream.h>

int main()
{
   int number;
   int average;
   int total=0;

   for (int counter=1;counter<4;counter++)
   {
    cout<<"Enter 3 numbers: \n";
    cin>>number;

    total = total+number;

   }

   average=total/4;
   cout<<"\nThe average of the 3 number is "<<average<<".";
}
```

```
   ----jGRASP exec: C:\Users\izzul\OneDrive\Documents\week 6.exe
  Enter 3 numbers:
▶▶ 3
  Enter 3 numbers:
▶▶ 5
  Enter 3 numbers:
▶▶ 7

  The average of the 3 number is 3.
   ----jGRASP: operation complete.
▶▶
```
